

Name - \_\_\_\_\_

Start time - \_\_ : \_\_

End time - \_\_ : \_\_

A boat takes visitors out into the sea to watch dolphins swimming. The bar chart shows the number of people that went out on each boat.

- a) How many people went on the 9.00 boat? \_\_\_\_\_
- b) How many people went on the 11.00 boat? \_\_\_\_\_
- c) A coach bringing people to one of the boats was late and the visitors missed the boat. Which boat do you think it was?  
\_\_\_\_\_
- d) How many more people went on the 9.00 boat than on the 12.00 boat?  
\_\_\_\_\_
- e) Which boat had most people on it? Why do you think this was?  
\_\_\_\_\_
- f) The 1.00 boat was full. How many visitors can one of these boats hold?  
\_\_\_\_\_
- g) How many people travelled on the boats altogether?
