The graph to the right shows the number of tickets sold by students in the drama club. Use the information in the graph to answer the following questions:

- 1) How many tickets were sold by David and Bob combined?
- 2) How many more tickets were sold by Bob than David?
- 3) How many fewer tickets were sold by Bob than Alice?
- 4) How many more tickets were sold by Carol than Bob?
- 5) How many tickets were sold by Bob and David combined?
- 6) How many fewer tickets were sold by David than Bob?
- 7) How many fewer tickets were sold by David than Carol?
- 8) How many fewer tickets were sold by Carol than Alice?
