End time - __ : __

Pictograph : Drawing and Interpretation

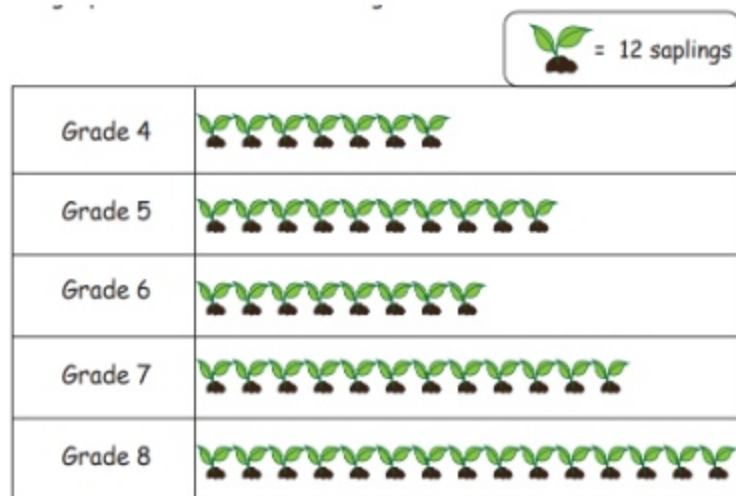

Martha organizes a Puppet show at the school carnival. The carnival is held for 5 days. The number of tickets sold are shown on a pictograph. Use the key and answer the questions that follow.

- How many tickets were sold on Monday? _____
- Which two days sold a total of 60 tickets? _____
- How many tickets were sold in all? _____

- If 40 more tickets would have been sold on Wednesday, would it be equal to the Sunday's sales? _____
- How many more tickets were sold on Sunday than Thursday? _____

Read the pictograph to answer the following.

- Which class planted 120 saplings? _____

- How many saplings did the Grade 8 students plant? _____
- Who planted more saplings? Grade 5 or Grade 8? How many? _____
- How many saplings in all were planted by the school? _____
