Start time - __: __

End time - __: __

Pictograph : Drawing and Interpretation

Jerry, a farmer harvested wheat in his farm. Wheat yield per harvested acre from 2015-2019 was analyzed and put in a pictograph.

Help Jerry analyze his harvest from 2015.

- How many bushels of paddy were harvested during 2015 and 2017?

- Which year yielded the maximum bushels of paddy? _____
- How many more bushels did the year 2019 yield than 2015?

- Which year yielded the least bushels of wheat? _____
- If you add 5 more bushels of paddy to this years yield, three years consecutively will have the same harvest. Which year? _____
