

Name - _____

Start time - __ : __

End time - __ : __

Match each threat to biodiversity with its description.

Threat	Description
Habitat Destruction	Overharvesting of species for commercial purposes
Pollution	Clearing of natural areas for agriculture or urban development
Overexploitation	Release of harmful substances into the environment
Invasive Species	Introduction of non-native species that outcompete native species

What are the main threats to biodiversity?

Discuss the role of protected areas in biodiversity conservation.

Differentiate between biotic and abiotic factors in an ecosystem.

Explain why maintaining biodiversity is crucial for the overall health and sustainability of ecosystems.
