

Name - _____

Start time - __ : __

End time - __ : __

Draw the magnetic field lines around a bar magnet. Indicate the direction of the magnetic field.

List three examples of magnetic materials and three examples of non-magnetic materials.

Magnetic Materials:

1. _____
2. _____
3. _____

Non-magnetic Materials:

1. _____
2. _____
3. _____

Explain how the magnetic field changes when two magnets are brought closer together and when they are moved farther apart.
