

Name - _____

Start time - __ : __

End time - __ : __

Read the original text carefully and then paraphrase each paragraph or section in your own words.

Passage 1 : The biodiversity of rainforests, with their myriad plant and animal species, is essential for ecological balance. Rainforests act as carbon sinks, absorbing carbon dioxide and mitigating climate change. Deforestation, driven by human activities, poses a significant threat to these diverse ecosystems, highlighting the urgent need for conservation efforts.

Paraphrased Text:

Passage 2: The digital revolution has transformed the way we work and interact. Smartphones, social media, and online platforms have become integral parts of our daily lives. This rapid digitalization has both positive and negative implications, shaping our communication methods, information access, and social connections.
