How does nuclear chemistry play a role in medical applications?

---

---

---

Explain the difference between alpha particles, beta particles, and gamma radiation.

---

---

---

Explain how X-rays are used in medical imaging.

---

---

---

Identify and explain the three types of radioactive decay.

---

---

---

Explain how radioactivity is related to the stability of atomic nuclei.

---

---

---

What is the difference between an alpha particle and a beta particle in radioactive decay?

---

---

---
